

HKCT Jubilee Academic Symposium

Key Issues for Regeneration in Hong Kong and the UK

Co-organized by:

Chartered Institute of Architectural Technologists - Hong Kong Centre

Introduction:

Creating a sustainable living environment in Hong Kong involves great challenges which are unique to our high-density and vibrant city. Given the pressing needs for us to regenerate older neighbourhoods and improve the connectivity of our urban areas, building regeneration and conservation have becoming more important concepts towards Hong Kong's sustainable future. This symposium provides a platform for professionals to exchange views on the key issues to the planning, design and implementation of regeneration initiatives. Through local and UK examples, experts from Hong Kong and UK will define the issues, explain the challenges and shape the strategies needed.

Date: 3rd May 2007

Time: 7:00-9:00p.m

Venue: Rm11-12, HKCT Metropolis Campus

Address: Level 9, the Metropolis Mall, 6 Metropolis Drive, Hung Hom, Kowloon

Speakers: Dr. Andrew Platten, Visiting Professor, Salford University, UK

Prof. Sam Allwinkle, Head of Sustainable Urban Development Research Group, Napier University, Edinburgh Scotland UK

Mr. Ivan Ho, Conservation Consultant

**A Certificate of Attendance would be issued to participants*
